WORK EXPERIENCE

Habitlabs (vitamin subscription selling startup)   Remote, Latvia
Software engineer   Feb 2024 – Apr 2024

- Single-handedly developed health supplement e-store on React, quickly reacting to design updates and client requests, resulting in intuitive design with attention to details.
- Contributed to project lifecycle by engaging with clients and designers to offer strategic design insights, ensuring alignment with client vision and project goals to bring start-up to its full potential.
- Learned to use designing tools to make structured proposals to work-in-progress mobile app.

Matrixsoftlabs (projects: Cosafe, Coyards - tech solutions for emergency situations)   Remote, Latvia
React Native developer   Jan 2023 – Feb 2024

- Played a key role in developing and enhancing Coyards, a cross-platform app for global emergency situations, using React Native within a microservices framework.
- Reduced the number of database queries by at least 3 times, supporting a user base of 20 000, by optimizing database queries, which also reduced operational costs of back-end.
- Improved app performance and UI while using interpersonal skills to handle communication with multilingual team in three languages. Proven consistency and flexibility by adjusting to evolving working schedule and providing constant updates on time.

Matrixsoftlabs (project: 1Touch - wellness field reservation service)   Remote, Latvia
Middle full-stack developer   Jun 2022 – Jun 2023

- Participated in well-being field business mobile development and web development by updating UI, testing and fixing known bugs, learning to apply studied Flutter, Node.js and React knowledge on the go.
- Filled and updated missing / outdated parts of app technical documentation.
- Proven personal drive, presentation skills and communication skills by receiving and completing tasks from the client directly, effectively bringing net profit from the first week of working.
